

technology for Self-Drilling
Screw and Self-Tapping Screw

HDG B7

Wind Turbine Fasteners

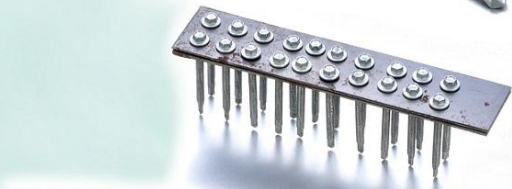

Advantage of **tg** co., ltd. Hot-Dip Galvanizing (HDG) Products:

1. Compliant with RoHS
2. Compliant with ACQ
3. Thread have no burrier after HDG
4. No Burrier inside the hole after HDG
5. Surface was flat after HDG
6. Good adhesion, zinc layer does not peel off after friction

Good Adhesion

Thread part wasn't peeled off after drilling to make sure the anti-corrosion effect

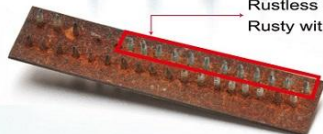

The product meets the speed requirement of DIN 7504. 12 mm iron plate can be penetrated.

Rustless with HDG
Rusty without HDG

Rustless with HDG
Rusty without HDG

No Burrier inside the hole after HDG

HDG NAIL

HDG WASHER

* Exposure Test 2Y : HDG Screws had no rust, and the drilling part of thread had no rust, either.
